Community Health Promotion & Planning

Community Health Planning

The Community Health Survey is being conducted. Over 150 surveys were completed during the Muskingum County Fair and online. Zane State students collected 400 surveys in September. Anyone can complete the survey by going to the ZMCHD website.

Healthy Homes Activities

Even though the new Healthy Homes Resource Support Center project just started in July, Kim Foster has already trained 46 people who work in medical offices on PLANET, which is geared to helping medical providers improve outcomes related to lead poisoning. She is also meeting with key partners in the 17 counties to explain the new grant objectives and to encourage collaboration on Healthy Homes at the county

level.

School Health Promotion Activities

Staff met with Amy Kendall, RN, the wellness coordinator for the local Headstart. Amy will be a key partner in implementing many school health promotion activities within Headstart.

Tobacco Prevention Activities

Kate Paul continues to work with members of the Community Impact Team to encourage a smoke-free corridor in Zanesville. Kate has met with County Commissioners and with Mayor Zwelling to get support for county and city agencies to develop smoke-free campus policies.

Tell us how you feel about community health issues! Take a survey online by Visiting www.zmchd.org.
