Professional Development

Lakyn Craig presented education on the 2022 Community Health Assessment.

The Healthier Muskingum County Network includes community partners from 45 local agencies. This group met to review data and develop the 2022 Community Health Assessment. Currently, ZMCHD staff facilitate the Healthier Muskingum County Network.

Based on the data from this assessment, the group also develops and evaluates the Community Health Improvement Plan. The 2022 Community Health Assessment is available online at www.zmchd.org/community-health-planning.

ZMCHD: An Investment in Your Health

The Zanesville-Muskingum County Health Department is seeking renewal of a 1 mill levy that expires in 2022. This is the same millage voters approved in 2012 and THIS IS NOT A NEW TAX. The cost to homeowners is \$20.57 per \$100,000 home or \$1.71 per month.

The levy funds daily services and operations including food safety inspections, disease investigations, vaccinations, mosquito control activities, plumbing and sewage system inspections, home visiting, nutrition education, care coordination, and linkage to resources.

Everyone who lives in or travels through Zanesville and Muskingum County benefits from Health Department programs and services.

Election Day is Tuesday, November 8, 2022.

Infant Safe Sleep

Infant caregivers and service/healthcare providers can join Safe to Sleep and its partners to encourage safe infant sleep and help raise awareness about ways to reduce the risk of SIDS.

Despite decreases in rates of SIDS and other sleep-related infant deaths, more than one-third of sudden unexpected infant deaths that occur in the United States each year are from SIDS.

Research also shows that unsafe sleep areas, such as those that include non-fitted sheets, blankets, or stuffed toys, remain a leading cause of infant death.

Help spread the word about safe infant sleep!

Cribs for Kids provides Graco Pack-n-Play cribs to families who do not have a safe place for their baby to sleep. The mission of this program is to prevent infant deaths that occur due to accidental suffocation, asphyxia, or other undetermined causes during sleep. Cribs are provided through the Prenatal and Maternal/Newborn Home Visiting Program after a safe sleep assessment is completed.

For more information, contact Tabby Jackson at 740-450-3275 extension 305.

Personnel Update

The Board of Health approved the following:

Retirement

Bonnie Kirsch, Director of Chronic Disease and Injury Prevention & Control

Reclassification/Promotion

Katie Eltringham, Program Assistant to Administrative Assistant 2

ZMCHD welcomed the following employees:

Connor Tyo, Social Work Intern

Tamala Marshall, Public Health Nurse

“We are so pleased to be recognized by PHAB for achieving national standards that foster effectiveness and promote continuous quality improvement.”
Corey Hamilton, MS, RD, LD, Health Commissioner

ZMCHD Awarded National Accreditation

The Zanesville Muskingum County Health Department announced it has been awarded national accreditation through the Public Health Accreditation Board (PHAB). Established in 2007, PHAB is the nonprofit organization that administers the national accreditation program, which aims to advance and transform public health practice by championing performance improvement, strong infrastructure, and innovation

“We are so pleased to be recognized by PHAB for achieving national standards that foster effectiveness and promote continuous quality improvement,” said Corey Hamilton, MS, RD, LD, Health Commissioner. “We hope this announcement will reassure our community, our partner organizations, our funders and our elected officials that the services we provide are as responsive as possible to the needs of our community. By continuing to improve our services and performance, we can be sure we are meeting the public health needs of those we serve as effectively as possible.”

The national accreditation program, which receives support from the Centers for Disease Control and Prevention and the Robert Wood Johnson Foundation, sets standards against which the nation’s governmental public health departments can continuously improve the quality of their services and performance. More than 80 percent of the U.S. population now reap the benefits of being served by a health department that has undergone PHAB’s rigorous, multi-faceted, peer-reviewed assessment process to ensure it meets a set of quality standards and measures.

Public health departments are on the front lines of communities’ efforts to protect and promote health and prevent disease and injury. Health departments provide services aimed at promoting healthy behaviors; preventing diseases and injuries; ensuring access to safe food, water, clean air, and life-saving immunizations; and preparing for and responding to public health emergencies.
